Bridgeworks

Construction Activities in Bankstown LGA:

- Bridge Works
- Earth Works
- Station Works

- Our construction works are not expected to emit regular noise levels
- Sheetpiling would be the noisiest activity during construction
- Our normal construction plant would include
 - Excavators
 - Trucks
 - Piling rigs
 - Rollers
- Plant movements will be controlled and within the work zone

- Letters to the schools - requesting exam timetables, and any other noise sensitive activities
- Letter box drops combined with door knocks to the areas directly opposite compounds
- Letters of introduction to all identified stakeholders
- Advertisement in all identified newspapers in regards to start of construction
- Press release for all identified newspapers in the area in regards to project and contact details

Stakeholders

- CLG feedback on Stakeholder list

- Immediate issues:
 - Urban Design and Landscape Plan
 - Parking layouts at stations
