

SSFL Overview
Bankstown Community Liaison Group

Conditions Attached to Approval:

- Station Access
- Car Parks
- Noise and Visual Character

Community Amenity Offset Plan (CAOP)

- Landscaping and tree planting
- Public art
- Street Furniture
- Car Parking
- Improved lighting
- Increased pedestrian and cycle access
- Any other outcomes after consultation

- Noise issues
- Sefton station - change in the pavement
- Visual pollution from barriers
- Improving cycle access across rail corridor would be desirable
- Diesel fumes from the freighters - in the right weather this is an issue (barrier would improve this problem)
- Native Plants - all should be replanted after the construction work has been completed
- Access to Chester Hill - there is no station upgrade as part of SSFL and it's a larger station (where as station works/upgrade at Sefton)
- Collection of pollutants from the rail corridor area - (pollutant trap to mitigate) - Wellington Road (see item 2 on Dale Donadel's feedback list)

What's next?

Next meeting

Date: Tuesday 7th October 2008

- Prue Hodgson, ARTC Community Liaison Manager SSFL
- Project Hotline number: 1800 182 543
- Prue's email address: phodgson@artc.com.au
