**REED CONSTRUCTIONS AUSTRALIA PTY LTD****SOUTHERN SYDNEY FREIGHT LINE**

Contract: NSW-T-C-1766 Southern Sydney Freight Line –

Formation construction between Liverpool & Glenfield, Ingleburn & Macarthur and Cabramatta & Liverpool.

Bridgeworks between Ingleburn & Macarthur, Cabramatta & Casula and the Glenfield Flyover.

Introduction

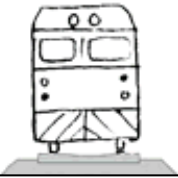

Reed Constructions Australia Pty Ltd (Reed) was founded by Mr Geoff Reed in 1979 and has since grown organically to a position where Reed now has an annual turnover in excess of \$350 million.

Reed specialises in a range of activities in the construction industry through its Divisions—Construction, Hospitality, Civil, Water, Interiors, Health, Developments, and Defence. Each Division offers a high level of expertise and experience for their dedicated market.

We have a proven track record of successfully building in these markets and enjoy a reputation of completing projects on time and within budget, with quality outcomes that exceed our clients' expectations. We also have a demonstrated track record in undertaking complex and difficult construction projects, especially projects that involve 'live' sites where management and access control is paramount.

Our project experience is diverse in nature and ranges from registered clubs, hotels, shopping centres, hospitals, office buildings, heritage buildings, civic works, schools, correctional facilities, industrial sites, roads, bridges, rail bridges, water and sewerage treatment plants and tunnelling along with public passageways such as streetscapes and pedestrian walkways. Some of the key infrastructure projects include

Wollongong Northern Distributor Extension Project, Main Road 651 – Falcon Street Pedestrian and Cyclist Bridge, South Parade and Rawson Street Intersection Upgrade and Western Railway Overbridge Renewal, Auburn, Sydney Harbour Bridge Access Restrictions Works – Structural Hardening and Railway Access Restrictions.

ARTC SSFL

Southern Sydney Freight Line Project

As a professional contracting company, Reed provides building construction, design and engineering services throughout Australia.

Progress

Current progress has been limited to the establishment of the site compound at Warwick Farm, preparatory ground surveys along the freight line route and the location and verification of existing services, utilities and structures, and initial design verification works.

Full construction is expected in March 2009.
