VOLUME 1 – MAIN VOLUME

SUMMARY	S.1
S.1 Introduction	S.1
S.2 Need for the proposal	S.1
S.3 Proposal description	S.2
S.4 Statutory process	S.4
S.5 Stakeholder consultation	S.5
S.6 The environmental assessment	S.6
<i>S.6.1 Traffic, transport and access</i>	S.6
<i>S.6.2 Acoustic environment</i>	S.6
<i>S.6.3 Biophysical environment</i>	S.7
<i>S.6.4 Social environment</i>	S.8
<i>S.6.5 Land use and property</i>	S.9
<i>S.6.6 Other issues</i>	S.10
S.7 Environmental management	S.10
S.8 Justification	S.11

Part A – Introduction and need

1. INTRODUCTION	1.1
1.1 What is proposed and why?	1.1
<i>1.1.1 North-South Corridor Strategy</i>	1.1
<i>1.1.2 Overview of the proposal</i>	1.2
1.2 The process for considering the proposal	1.5
<i>1.2.1 Planning and decision-making process</i>	1.5
<i>1.2.2 The Environmental Assessment</i>	1.9
<i>1.2.3 Post-determination activities</i>	1.12
1.3 Approach to the assessment of the proposal	1.12
<i>1.3.1 Community and stakeholder involvement</i>	1.12
<i>1.3.2 Principles of ecologically sustainable development</i>	1.15
<i>1.3.3 Cumulative and strategic impact assessment</i>	1.16

2. NEED FOR THE PROPOSAL	2.1
2.1 Strategic rail and freight context	2.1
2.1.1 Rail development in NSW	2.1
2.1.2 National rail freight network	2.2
2.2 North-south railway corridor	2.4
2.2.1 The north-south transport market	2.4
2.2.2 Volumes	2.6
2.3 ARTC's business strategy	2.8
2.3.1 Influences on the road/rail mode share	2.8
2.3.2 Current rail performance	2.8
2.3.3 ARTC's investment strategy	2.8
2.3.4 Role of the Southern Sydney Freight Line	2.9
2.3.5 Volume growth projections	2.10
2.4 Regional planning context	2.12
2.5 Regional transport infrastructure	2.13
2.5.1 AusLink national network	2.13
2.5.2 Future rail network	2.13
2.5.3 Road network	2.15
2.5.4 Sydney ports	2.15
2.5.5 Freight Infrastructure Advisory Board	2.16
2.5.6 Freight terminals	2.16
2.6 Alternatives to the Southern Sydney Freight Line	2.17
2.6.1 Implications of doing nothing	2.17
2.6.2 Alternative corridors	2.17
2.6.3 Terminals south of Macarthur	2.20
2.7 Need for the Southern Sydney Freight Line	2.21
2.8 Objectives to address identified needs	2.22
2.8.1 Primary objectives	2.22
2.8.2 Secondary objectives	2.22

Part B – Description of the proposal

3. APPROACH TO THE DESIGN	3.1
3.1 Development of the design	3.1
3.2 Design criteria and principles	3.1
3.3 Environmental investigations and design issues	3.2

3.4 Concept design responses to design principles and issues	3.2
3.4.1 <i>Alignment</i>	3.3
3.4.2 <i>Bridges</i>	3.3
3.4.3 <i>Public crossings</i>	3.3
3.4.4 <i>Stations</i>	3.3
3.4.5 <i>Noise attenuation</i>	3.4
3.4.6 <i>Urban and landscape design</i>	3.4
3.4.7 <i>Geotechnical</i>	3.5
3.5 Design alternatives considered	3.6
3.5.1 <i>Approach to assessment</i>	3.6
3.5.2 <i>Glenfield flyover</i>	3.7
3.5.3 <i>Passing loop</i>	3.10
3.5.4 <i>Sefton Park Junction</i>	3.12
3.5.5 <i>Cabramatta Railway Station</i>	3.15
4. CORRIDOR DESCRIPTION	4.1
4.1 Proposed alignment	4.1
4.2 Rail corridor requirements	4.11
4.2.1 <i>Earthworks requirements</i>	4.14
4.2.2 <i>Construction of connections to sidings and freight terminals</i>	4.15
4.2.3 <i>Drainage and culvert structures</i>	4.16
4.2.4 <i>Glenfield flyover</i>	4.17
4.2.5 <i>Sefton Park Junction deep cutting</i>	4.19
4.3 Public crossings	4.19
4.3.1 <i>Pedestrian footbridges</i>	4.19
4.3.2 <i>Pedestrian underpasses</i>	4.20
4.3.3 <i>Road bridges</i>	4.20
4.3.4 <i>Rail bridges over roads and creeks</i>	4.21
4.3.5 <i>Level crossings</i>	4.24
4.4 Services and utilities	4.24
4.5 Urban and landscape design	4.26
4.5.1 <i>Corridor</i>	4.26
4.5.2 <i>Lighthorse Park, Liverpool</i>	4.37
4.6 Noise attenuation	4.38
4.7 Property acquisition	4.39

5. CONSTRUCTION OF THE PROPOSAL	5.1
5.1 Corridor construction	5.1
5.1.1 <i>Overview of the construction sequence</i>	5.1
5.1.2 <i>Phase A: preparatory works</i>	5.2
5.1.3 <i>Phase B: main civil works</i>	5.2
5.1.4 <i>Phase C: trackwork and commissioning</i>	5.6
5.1.5 <i>Plant and equipment</i>	5.6
5.1.6 <i>Construction traffic and access</i>	5.6
5.1.7 <i>Transport and pedestrian management</i>	5.8
5.1.8 <i>Workforce and working hours</i>	5.8
5.1.9 <i>Ancillary construction facilities</i>	5.9
5.1.10 <i>Rail track possessions/closedowns</i>	5.9
5.2 Project delivery	5.10
5.3 Construction cost	5.10
6. STATION PRECINCTS DESCRIPTION	6.1
6.1 Construction description	6.1
6.1.1 <i>Provision of passenger protection</i>	6.2
6.1.2 <i>Collision protection at stations</i>	6.2
6.1.3 <i>Provision of easy access</i>	6.3
6.2 Leumeah Railway Station precinct	6.4
6.3 Minto Railway Station precinct	6.7
6.4 Casula Railway Station precinct	6.10
6.5 Warwick Farm Railway Station precinct	6.13
6.6 Cabramatta Railway Station precinct	6.16
6.7 Sefton Railway Station precinct	6.21
6.8 Other station precincts	6.24
6.9 Property acquisition	6.24
7. OPERATION OF THE PROPOSAL	7.1
7.1 Line operations	7.1
7.1.1 <i>Train types</i>	7.1
7.1.2 <i>Train length</i>	7.2
7.1.3 <i>Speed</i>	7.2
7.1.4 <i>Tonnage</i>	7.3
7.1.5 <i>Locomotive types and number</i>	7.3
7.1.6 <i>Single stack freight trains</i>	7.3
7.1.7 <i>Interface with the RailCorp network</i>	7.3
7.1.8 <i>Likely freight train timetables</i>	7.6

7.2 Provision for potential future operations and infrastructure	7.8
7.3 Line control	7.9
7.4 Line and infrastructure maintenance	7.9

8. ENVIRONMENTAL MANAGEMENT 8.1

8.1 ARTC environmental management plan	8.1
8.2 Contractor environmental management system and plans	8.1
8.3 Supplementary environmental management plans	8.2
8.4 Operational environmental management	8.2

Part C – Corridor assessment

9. ENVIRONMENTAL CONTEXT 9.1

9.1 Socioeconomic environment	9.1
9.2 Biophysical environment	9.10
9.3 Stakeholders and community values	9.10
9.3.1 Stakeholders	9.10
9.3.2 Community values	9.11
9.3.3 Community issues and concerns	9.12

10. TRAFFIC, TRANSPORT AND ACCESS 10.1

10.1 Corridor characteristics	10.1
10.1.1 Road network and traffic	10.1
10.1.2 Pedestrian and bicycle network	10.2
10.1.3 Bus network and interchanges	10.3
10.2 Impacts during construction	10.12
10.2.1 Vehicle movements	10.12
10.2.2 Traffic	10.16
10.2.3 Buses and taxis	10.18
10.2.4 Emergency services access	10.18
10.2.5 Station access	10.19
10.2.6 Commuter parking	10.19
10.2.7 Pedestrian and cycle paths and crossings	10.19
10.3 Impacts during operation	10.20
10.3.1 Bridge upgrades	10.20
10.3.2 New rail bridges over roads	10.20
10.3.3 Road network changes	10.20

10.3.4	<i>Local and emergency services access</i>	10.20
10.3.5	<i>Cyclist and pedestrian access</i>	10.20
10.3.6	<i>Vehicle movements</i>	10.21
10.3.7	<i>Buses and taxis</i>	10.21
10.3.8	<i>Commuter parking</i>	10.21
10.4	Traffic and transport management	10.21
10.4.1	<i>Traffic Management Reports</i>	10.22
10.4.2	<i>Traffic Management Plans</i>	10.23
10.4.3	<i>Traffic Control Plans</i>	10.23
10.4.4	<i>Corridor management</i>	10.23
10.4.5	<i>Communications</i>	10.23
10.5	Conclusions	10.24
11.	ACOUSTIC ENVIRONMENT	11.1
11.1	Local characteristics	11.1
11.1.1	<i>Noise catchment areas</i>	11.1
11.1.2	<i>Ambient noise levels</i>	11.1
11.2	Changes to the acoustic environment	11.4
11.2.1	<i>Construction noise and vibration</i>	11.4
11.2.2	<i>Operational noise and vibration</i>	11.8
11.3	Environmental management	11.15
11.3.1	<i>Construction noise and vibration management</i>	11.15
11.3.2	<i>Operational noise and vibration management</i>	11.16
12.	BIOPHYSICAL ENVIRONMENT	12.1
12.1	Local characteristics	12.1
12.1.1	<i>Geology and soils</i>	12.1
12.1.2	<i>Contaminated/hazardous materials and waste</i>	12.5
12.1.3	<i>Ground and surface water</i>	12.6
12.1.4	<i>Biodiversity</i>	12.8
12.2	Changes to biophysical environment	12.12
12.2.1	<i>Geology and soils</i>	12.12
12.2.2	<i>Contaminated/hazardous materials and waste</i>	12.16
12.2.3	<i>Ground and surface water</i>	12.18
12.2.4	<i>Biodiversity</i>	12.21

12.3 Environmental management	12.24
12.3.1 <i>Geology and soils</i>	12.24
12.3.2 <i>Contaminated/hazardous materials and waste</i>	12.27
12.3.3 <i>Ground and surface water</i>	12.29
12.3.4 <i>Biodiversity</i>	12.30
13. SOCIAL ENVIRONMENT	13.1
13.1 Local characteristics	13.1
13.1.1 <i>Aboriginal heritage</i>	13.1
13.1.2 <i>Built heritage</i>	13.5
13.1.3 <i>Visual character</i>	13.8
13.1.4 <i>Air quality</i>	13.10
13.1.5 <i>Social</i>	13.19
13.2 Changes to the social environment	13.21
13.2.1 <i>Aboriginal heritage</i>	13.21
13.2.2 <i>Built heritage</i>	13.22
13.2.3 <i>Visual character</i>	13.23
13.2.4 <i>Air quality</i>	13.27
13.2.5 <i>Social</i>	13.30
13.3 Environmental management	13.34
13.3.1 <i>Aboriginal heritage</i>	13.34
13.3.2 <i>Built heritage</i>	13.35
13.3.3 <i>Visual character</i>	13.35
13.3.4 <i>Air quality</i>	13.35
13.3.5 <i>Social</i>	13.36
14. LAND USE AND PROPERTY	14.1
14.1 Local characteristics	14.1
14.1.1 <i>Existing land uses</i>	14.1
14.1.2 <i>Zoning</i>	14.3
14.1.3 <i>Existing Property</i>	14.5
14.2 Changes to land use and property	14.5
14.2.1 <i>Impacts during construction</i>	14.5
14.2.2 <i>Impacts during operation</i>	14.6
14.3 Environmental management	14.12

15. OTHER ENVIRONMENTAL CONSIDERATIONS	15.1
15.1 Hazard and risk	15.1
15.1.1 <i>Impacts during construction</i>	15.1
15.1.2 <i>Impacts during operation</i>	15.2
15.2 Energy and demand on resources	15.3
15.2.1 <i>Methodology</i>	15.3
15.2.2 <i>Impacts during construction</i>	15.3
15.2.3 <i>Impacts during operation</i>	15.5
15.3 Environmental management	15.7
15.3.1 <i>Hazard and risk</i>	15.7
15.3.2 <i>Energy and resource use</i>	15.7

Part D – Precinct assessment

16. LEUMEAH RAILWAY STATION PRECINCT ASSESSMENT	16.1
16.1 Environmental context	16.1
16.2 Stakeholder and community issues	16.1
16.2.1 <i>Stakeholders</i>	16.1
16.2.2 <i>Community issues and concerns</i>	16.1
16.3 Traffic, transport and access	16.3
16.3.1 <i>Local characteristics</i>	16.3
16.3.2 <i>Changes to traffic, transport and access</i>	16.4
16.3.3 <i>Traffic and transport management</i>	16.4
16.4 Social environment	16.5
16.4.1 <i>Local characteristics</i>	16.5
16.4.2 <i>Changes to the social environment</i>	16.5
16.4.3 <i>Environmental management</i>	16.6
16.5 Land use and property	16.6
16.5.1 <i>Local characteristics</i>	16.6
16.5.2 <i>Changes to land use and property</i>	16.7
16.5.3 <i>Environmental management</i>	16.7
16.6 Station precinct assessment summary	16.7
16.6.1 <i>Summary of impacts</i>	16.7
16.6.2 <i>Summary of environmental management</i>	16.8

17. MINTO RAILWAY STATION PRECINCT ASSESSMENT	17.1
17.1 Environmental context	17.1
17.2 Stakeholder and community issues	17.1
17.2.1 Stakeholders	17.1
17.2.2 Community issues and concerns	17.1
17.3 Traffic, transport and access	17.3
17.3.1 Local characteristics	17.3
17.3.2 Changes to traffic, transport and access	17.4
17.3.3 Traffic and transport management	17.5
17.4 Social environment	17.5
17.4.1 Local characteristics	17.5
17.4.2 Changes to the social environment	17.6
17.4.3 Environmental management	17.7
17.5 Land use and property	17.7
17.5.1 Local characteristics	17.7
17.5.2 Changes to land use and property	17.8
17.5.3 Environmental management	17.8
17.6 Station precinct assessment summary	17.8
17.6.1 Summary of impacts	17.8
17.6.2 Summary of environmental management	17.9
18. CASULA RAILWAY STATION PRECINCT ASSESSMENT	18.1
18.1 Environmental context	18.1
18.2 Stakeholder and community issues	18.2
18.2.1 Stakeholders	18.2
18.2.2 Community issues and concerns	18.2
18.3 Traffic, transport and access	18.2
18.3.1 Local characteristics	18.2
18.3.2 Changes to traffic, transport and access	18.3
18.3.3 Traffic and transport management	18.3
18.4 Social environment	18.4
18.4.1 Local characteristics	18.4
18.4.2 Changes to the social environment	18.4
18.4.3 Environmental management	18.5
18.5 Land use and property	18.5
18.5.1 Local characteristics	18.5
18.5.2 Changes to land use and property	18.6
18.5.3 Environmental management	18.6

18.6 Station precinct assessment summary	18.7
18.6.1 Summary of impacts	18.7
18.6.2 Summary of environmental management	18.7
19. WARWICK FARM RAILWAY STATION PRECINCT ASSESSMENT	19.1
19.1 Environmental context	19.1
19.2 Stakeholder and community issues	19.2
19.2.1 Stakeholders	19.2
19.2.2 Community issues and concerns	19.2
19.3 Traffic, transport and access	19.2
19.3.1 Local characteristics	19.2
19.3.2 Changes to traffic, transport and access	19.3
19.3.3 Traffic and transport management	19.4
19.4 Social environment	19.4
19.4.1 Local characteristics	19.4
19.4.2 Changes to the social environment	19.5
19.4.3 Environmental management	19.5
19.5 Land use and property	19.5
19.5.1 Local characteristics	19.5
19.5.2 Changes to land use and property	19.6
19.5.3 Environmental management	19.6
19.6 Station precinct assessment summary	19.6
19.6.1 Summary of impacts	19.6
19.6.2 Summary of environmental management	19.7
20. CABRAMATTA RAILWAY STATION PRECINCT ASSESSMENT	20.1
20.1 Environmental context	20.1
20.2 Stakeholder and community issues	20.1
20.2.1 Stakeholders	20.1
20.2.2 Community issues and concerns	20.1
20.3 Traffic, transport and access	20.3
20.3.1 Local characteristics	20.3
20.3.2 Changes to traffic, transport and access	20.6
20.3.3 Traffic and transport management	20.7
20.4 Social environment	20.7
20.4.1 Local characteristics	20.7
20.4.2 Changes to the social environment	20.9
20.4.3 Environmental management	20.10

20.5 Land use and property	20.10
20.5.1 Local characteristics	20.10
20.5.2 Changes to land use and property	20.11
20.5.3 Environmental management	20.12
20.6 Station precinct assessment summary	20.12
20.6.1 Summary of impacts	20.12
20.6.2 Summary of environmental management	20.13
21. SEFTON RAILWAY STATION PRECINCT ASSESSMENT	21.1
21.1 Environmental context	21.1
21.2 Stakeholder and community values	21.2
21.2.1 Stakeholders	21.2
21.2.2 Community issues and concerns	21.2
21.3 Traffic, transport and access	21.2
21.3.1 Local characteristics	21.2
21.3.2 Changes to traffic, transport and access	21.3
21.3.3 Traffic and transport management	21.4
21.4 Social environment	21.4
21.4.1 Local characteristics	21.4
21.4.2 Changes to the social environment	21.5
21.4.3 Environmental management	21.6
21.5 Land use and property	21.7
21.5.1 Local characteristics	21.7
21.5.2 Changes to land use and property	21.7
21.5.3 Environmental management	21.8
21.6 Station precinct assessment summary	21.8
21.6.1 Summary of impacts	21.8
21.6.2 Summary of environmental management	21.9

Part E - Justification and conclusion

22. JUSTIFICATION AND CONCLUSION	22.1
22.1 Cumulative and strategic impact assessment	22.1
22.2 Measurable economic benefits	22.3
22.2.1 Approach to economic evaluation	22.3
22.2.2 Description of economic benefits	22.3

22.3 Justification of the proposal	22.4
22.3.1 Primary project objectives	22.5
22.3.2 Secondary project objectives	22.6
22.3.3 Ecologically sustainable development	22.7
22.4 Conclusion	22.7

Appendices

- Appendix A Requirements of the Director-General of the Department of Planning
- Appendix B Checklist of Key Issues to be Addressed in the Environmental Assessment
- Appendix C Draft Statement of Commitments
- Appendix D Summary of Community and Stakeholder Consultation
- Appendix E Construction traffic routes
- Appendix F Groundwater bores along SSFL route
- Appendix G Wind Analysis
- Appendix H Study Team

VOLUME 2 – TECHNICAL PAPERS

Technical Paper 1 – Supporting technical information

1. Geology and soils
2. Flora and fauna
3. Contaminated/hazardous materials and waste
4. Hazard and risk

Technical Paper 2 – Noise and vibration assessment

Technical Paper 3 – Built heritage assessment

Technical Paper 4 – Aboriginal heritage assessment

Technical Paper 5 – Visual assessment
