CARRAMAR STATION & PROSPECT CREEK WORKS

Australian Rail Track Corporation (ARTC) will be undertaking construction works within the rail corridor in your area on the 2nd and 3rd April 2009 from 10.00pm until 4.00am.

These works are part of the construction of the Southern Sydney Freight Line (SSFL). These critical activities can only be undertaken during a RailCorp possession while no trains will be operating on the identified line and the electrified overhead is switched off. ARTC will be installing two aerial cable track crossings between the high voltage poles.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
