

AUSTRALIAN RAIL TRACK CORPORATION LTD  
Southern Sydney Freight Line

**ROAD CLOSURE – Hector Street 16 May 8am – 10am**

Australian Rail Track Corporation (ARTC) is undertaking construction works at the Hector Street rail bridge in the Sefton area, which commenced Monday 27 April 2009.

During this work, a **full closure of both traffic lanes will have to be implemented for two hours on 16 May 2009 from 8.00am to 10.00am.**

A road closure with full detour will be in place for this operation and the speed limit in the immediate vicinity of the works will be reduced to 40 kilometres per hour.

These works form part of the construction of the Southern Sydney Freight Line (SSFL). The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services and providing more capacity for freight trains on the dedicated lines.

We appreciate the community's patience while we build this important project.
