

AUSTRALIAN RAIL TRACK CORPORATION LTD
Southern Sydney Freight Line

**SUSSEX STREET RAIL UNDERBRIDGE - CHANGED TRAFFIC
ARRANGEMENTS**

Australian Rail Track Corporation (ARTC) will be undertaking construction works at Sussex Street Underbridge within the rail corridor on 17th June 2009.

The Sussex Street Underbridge traffic control arrangements will be as follows:

Through out the closure traffic will be reduced to one lane, traffic will be allowed in both directions, as managed onsite by traffic controllers or traffic signals depending on the time of day. Please be aware there will be minor delays.

During hours of work 7.00am until 6.00pm on week days and on Saturday from 8.00am until 1.00pm traffic controllers will be in place. Outside of these hours, there will be traffic signals directing traffic.

Pedestrian access at this location will be maintained at all times through out this closure. The closure will be effective from 17th June 2009 until 30th November 2009.

These works form part of the construction of the Southern Sydney Freight Line (SSFL). The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services and providing more capacity for freight trains on the dedicated lines.

We appreciate everyone's patience while we build this important project.
