

AUSTRALIAN RAIL TRACK CORPORATION LTD  
**Southern Sydney Freight Line**

**Partial Road Closure – Hector Street**

Australian Rail Track Corporation (ARTC) will be undertaking construction works at the Hector Road Underbridge and will need to partially close the Northern Lane of traffic at Hector Street on the **20<sup>th</sup> November 2009**.

The works will involve the installation of new guardrails on the western side of Hector St on Friday, 20 November 2009. Our works is expected to be performed over 1 day period and will involve having a partial road closure in the northern direction with stop slow traffic controls implemented for the duration of the works.

These works form part of the construction of the Southern Sydney Freight Line (SSFL). The SSFL is a 36 kilometre dedicated freight line between Macarthur and Sefton and the new track is within the existing rail corridor. The SSFL will allow passenger and freight services to operate independently, freeing up passenger lines for improved services and providing more capacity for freight trains on the dedicated lines.

Thank you for your patience.
