Cabramatta Station Works – Update

Australian Rail Track Corporation (ARTC) has begun works at Cabramatta Station. This work is required as part of the Cabramatta Station upgrade works and will involve construction of a new bus stop, lift shaft and concourse.

The works at Cabramatta Station are continuing, please find details of works summarised below:

- Excavation of deflection wall structure is complete with preparatory concrete works to stabilize sides of Excavation also complete.
- Works were delayed 1 week due to rain.
- Shoring of Broomfield Street adjacent to excavation has been completed to Structural Engineers details.
- Reinforced concrete works for deflection wall structure has begun.
- Site facilities for construction workers have been erected on rented private land to minimise impact on local carparking.
- Fencing has been erected around Broomfield street car parking North of station to begin back of platform structural support works.
- Fencing has been erected around the location of the new perpendicular parking to be constructed on Railway Parade south of the overpass. Clearing and levelling is almost complete with construction of a retaining wall and new footpath shortly to commence.

We appreciate everyone's patience while we build this important project.
