

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

ELECTRICAL CABLE PROTECTION

Australian Rail Track Corporation (ARTC) will be undertaking construction works in the rail corridor adjacent to Glenfield Rd and Railway Parade from the 27 to the 30 January 2010. The work will involve exposing an Integral Energy underground cable and lowering the cable before backfilling. This work is required as part of the enabling works to facilitate the construction of the Southern Sydney Freight Line.

The works will be carried on during standard work hours (7am to 6pm) and the duration will not exceed 4 days. During the four days, there will be non-continuous pedestrian and motor vehicle traffic control in place on Railway Parade. The equipment used in the area will be an excavator, a jackhammer, a concrete mixer, a vibration compactor, traffic control, work vehicles and hand tools.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
