

AUSTRALIAN RAIL TRACK CORPORATION LTD

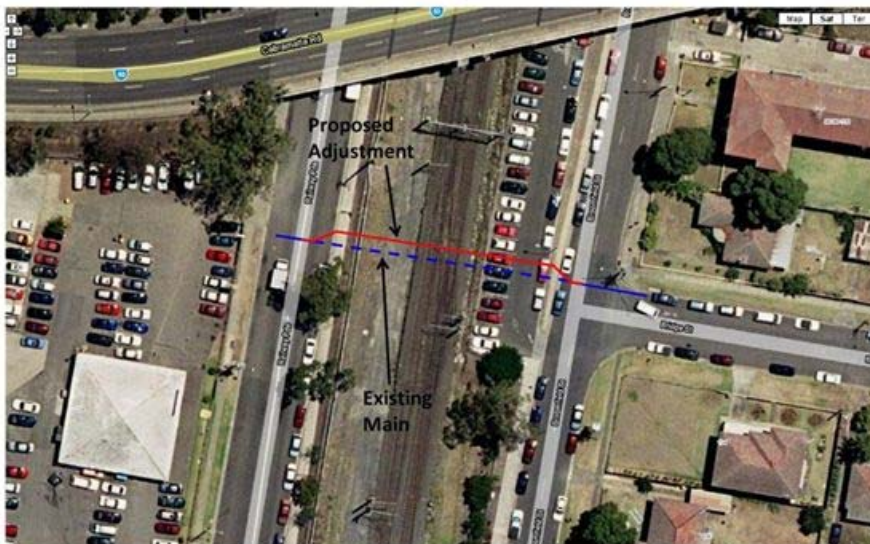

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Bridge Street, Cabramatta

Australian Rail Track Corporation (ARTC) have constructed an underbore at Bridge Street, Cabramatta as part of the SSFL works. Once the installation of the pipework has been completed, there will be a requirement to undertake a connection into the Sydney Water system, which may cause some disruption to your water supply. Prior to this connection Sydney Water will contact residential customers 3 days in advance of the disruption and for Commercial Customers 7 days before the disruption occurs. The connection works will be carried out towards the end of February/early March 2010.

This connection work is required as part of the enabling works to facilitate the construction of the Southern Sydney Freight Line. The equipment on site will include an excavator, a welder, work vehicles, generator and traffic control.

W30c SWC underbore at Bridge Rd Cabramatta - WS 048

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
