

AUSTRALIAN RAIL TRACK CORPORATION LTD
Southern Sydney Freight Line

Energy Australia Relocations - Tewinga Road, Birrong

Australian Rail Track Corporation (ARTC) will be carrying out the installation of Integral Energy Low Voltage (LV) Feeders, this will supply the Sefton Pump Station. These works are part of the SSFL Project. The works will include local excavation and trenching and cable hauling, with some preliminary potholing works. The work will begin on 10th September 2010 and will take approximately 3 weeks to complete.

These works will be carried out in approved project hours. Traffic and pedestrian movements will be impacted by these works and traffic control will be in place to manage these movements.

The equipment on site will include: excavator, cable truck, jack hammer, concrete mixer, work vehicles and hand tools.

We appreciate everyone's patience while we build this important project for Sydney, NSW and the nation.
