

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Track work from Regents Park to Villawood

The Southern Sydney Freight Line will be commissioned from Sefton East Junction to Leightonfield on 9 and 10 July 2011, as a single directional line.

Commissioning activities include testing of track work and signals to ensure that trains will operate safely.

In order to meet this critical date for operation of the Sefton East Junction to Leightonfield SSFL, track work will be required outside of normal construction hours.

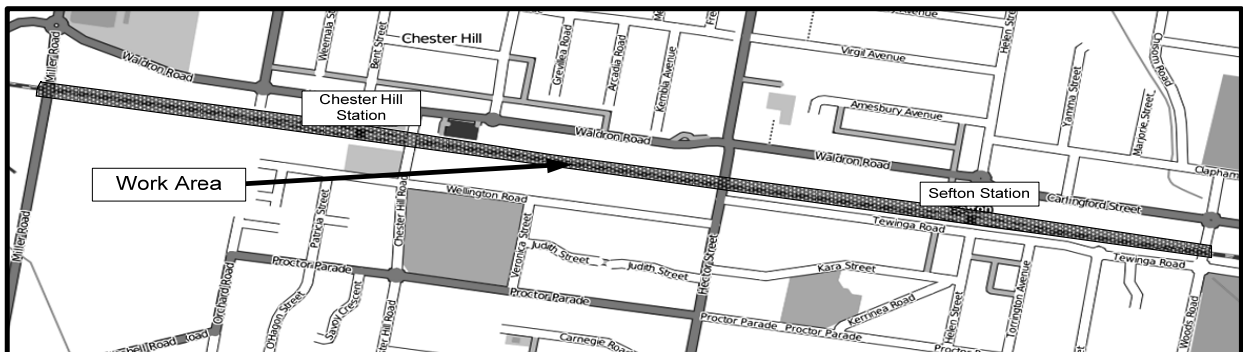

After commissioning there will be further minor civil works required to be completed within the rail corridor for approximately 4 weeks in normal construction working hours.

The new track will become operational after this time, which will allow existing freight trains to travel on the new track (mostly in a westerly direction).

Woods Road, Sefton to Miller Road, Villawood

Welding and adjustment works to install rail will be undertaken between 7am and 6pm on Saturday 25 June and Saturday 2 July 2011, and between 8am and 6pm on Sunday 26 June and Sunday 3 July 2011.

The equipment used will include site vehicles, eight daymakers (lights to allow visibility at night), 4t balloon tyred dumper, front-end loader, oxy sets, rail saw, clipping machine, tensors, rattle gun and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
