

AUSTRALIAN RAIL TRACK CORPORATION LTD

## Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

### Construction Work from Liverpool to Glenfield

Australian Rail Track Corporation (ARTC) will be undertaking works in the rail corridor from Liverpool to Glenfield. These works must be undertaken outside of normal construction hours because there are safety risks involved with working in close proximity to the overhead wires and tracks.

The hours of work will be on Saturdays from 7am to 6pm, and on Sundays from 8am to 6pm with a contingency of 6pm to 10pm for Casula Station works.

The work has been broken into six individual work areas (A-F); in each individual work area the work will be undertaken on various weekends between Saturday 3 September and Sunday 30 October 2011.

The works will consist of installation and removal of power poles, drainage earthworks, bored piling and station upgrade works.

The equipment used will include excavators, compactors, dumpers, rollers, bobcats, cranes, franna cranes, pole trucks, elevated work platforms, a water cart, grader, auger, piling rig, concrete trucks, boom and pump, and powered and non-powered hand tools.

Please see the reverse side of this notification for a detailed map.

We appreciate your patience while we build this important project for Sydney and NSW.
