

AUSTRALIAN RAIL TRACK CORPORATION LTD

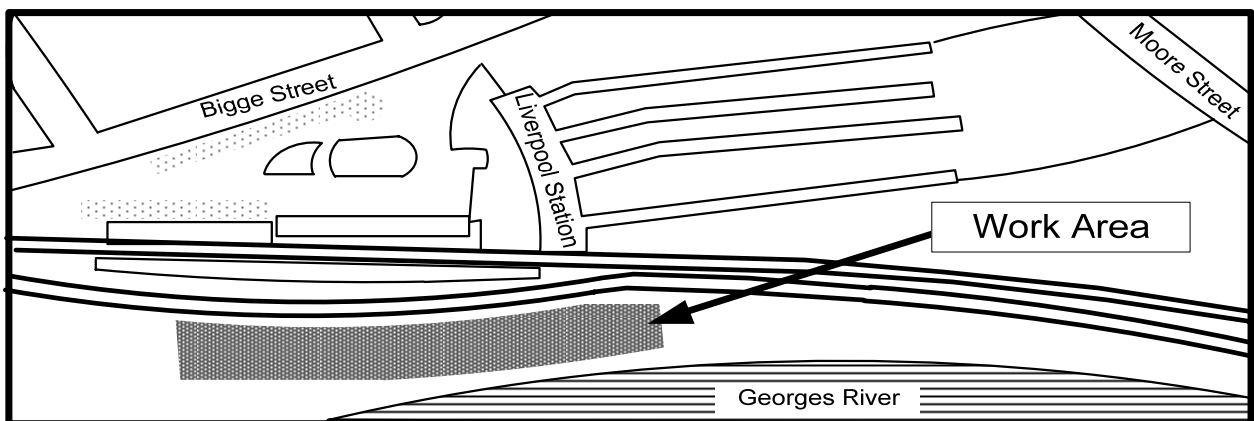

## Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

### Construction Works – Liverpool

Australian Rail Track Corporation (ARTC) will be installing and commissioning a new water pipeline at Liverpool, between Liverpool Station and the Georges River. These works must be undertaken outside of normal construction hours to minimise disruption to residents and businesses, as a water main will be required to be isolated.

Weather permitting, the works, including excavation, concreting, spoil removal and craning of material where needed, will be undertaken for a period of 36 consecutive hours commencing on Wednesday 5 October 2011(weather permitting).

The equipment used will include a compressor and generator, 20t excavator, concrete truck and pump, bogie tipper, hiab truck, 20t mobile franna crane, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
