

AUSTRALIAN RAIL TRACK CORPORATION LTD

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

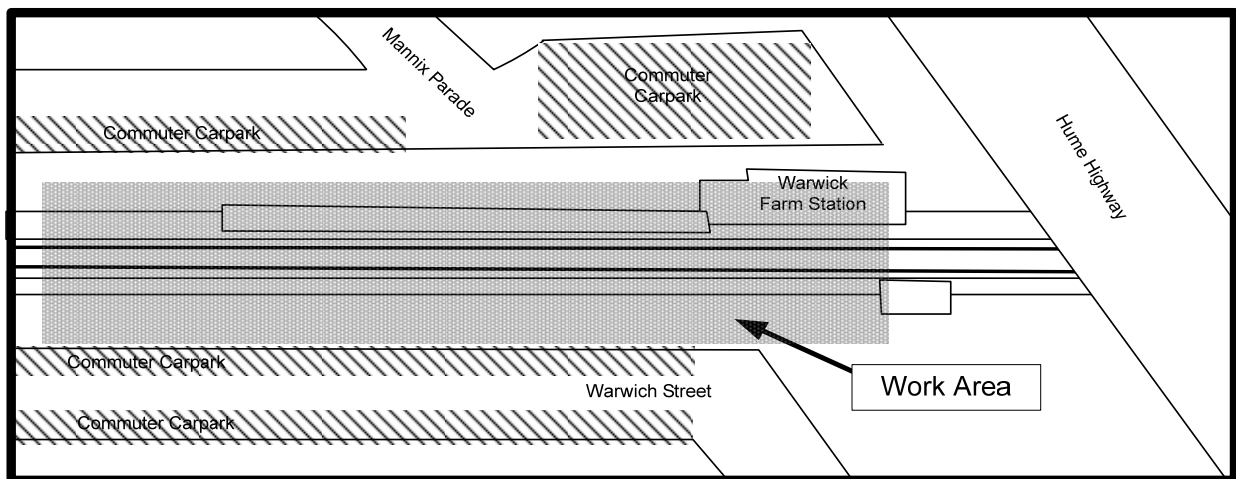

Construction Work at Warwick Farm Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Warwick Farm Station. This work must be undertaken outside normal construction because there are safety risks involved with working in close proximity to the overhead wires and tracks.

The work will consist power upgrade works, remedial works to bridge works, demolition of the existing waiting room, pouring of transfloor slabs on both the SSFL and the down side and works to the existing platform.

The work will be undertaken from 7am to 6pm on Saturday 22 October and from 8am to 6pm on Sunday 23 October 2011. A contingency is in place for 6pm to 10pm on both days.

The equipment used will include 20t franna crane, mobile scaffold, elevated work platform, knuckle boom, oxy set, jack hammer, electric drill, power saw, concrete saw, rattle guns, compressor, generator, concrete pump, delivery vehicles, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
