Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Construction Work from Riverpark Drive to Atkinson Street, Liverpool

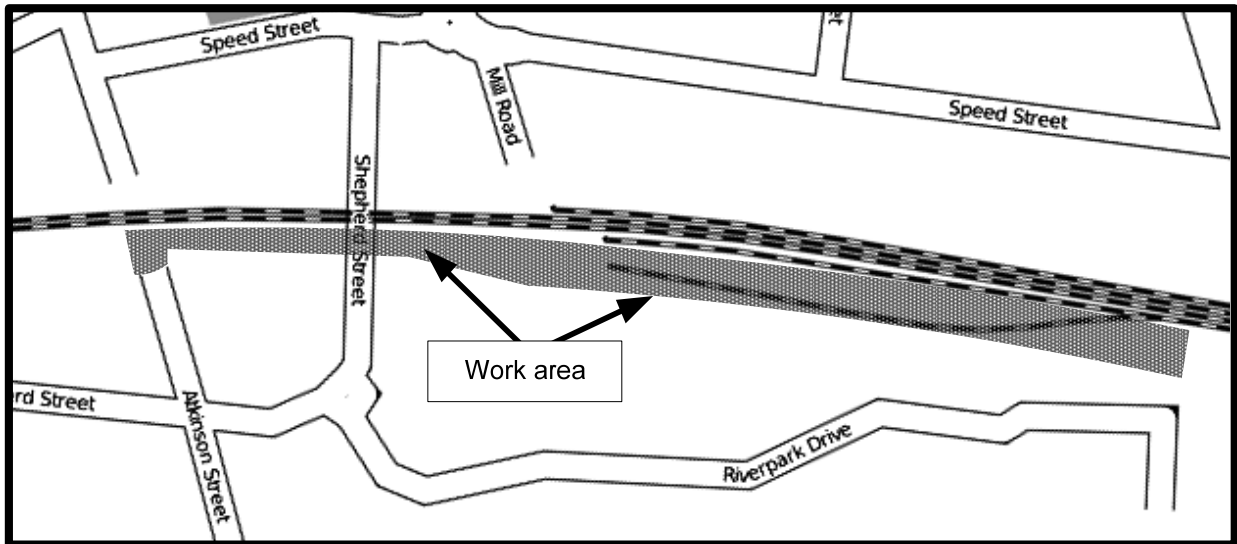

Australian Rail Track Corporation (ARTC) will be undertaking construction work from Riverpark Drive to Atkinson Street, Liverpool. This work must be undertaken outside normal construction hours because there is safety risks involved with working in close proximity to the overhead wires when the power is on.

Installation of new power poles and conductors will be undertaken from 7am to 6pm on Saturday and from 8am to 6pm on Sunday, for two weekends between Saturday 5 November 2011 and Sunday 26 February 2012. Two contingency weekends of the same hours are approved during this same period.

It is anticipated that the work will be undertaken on the weekends of 3-4, 10-11 and 17-18 December 2011, weather permitting. Should weather not permit the works from taking place, they will be undertaken on later dates within the approved period.

Residents that have been identified for respite offers will be notified prior to the final confirmation of these works.

The equipment used will include a sucker truck (non-destructive digging truck), pole truck, two elevated work platforms, a franna crane, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
