

AUSTRALIAN RAIL TRACK CORPORATION LTD

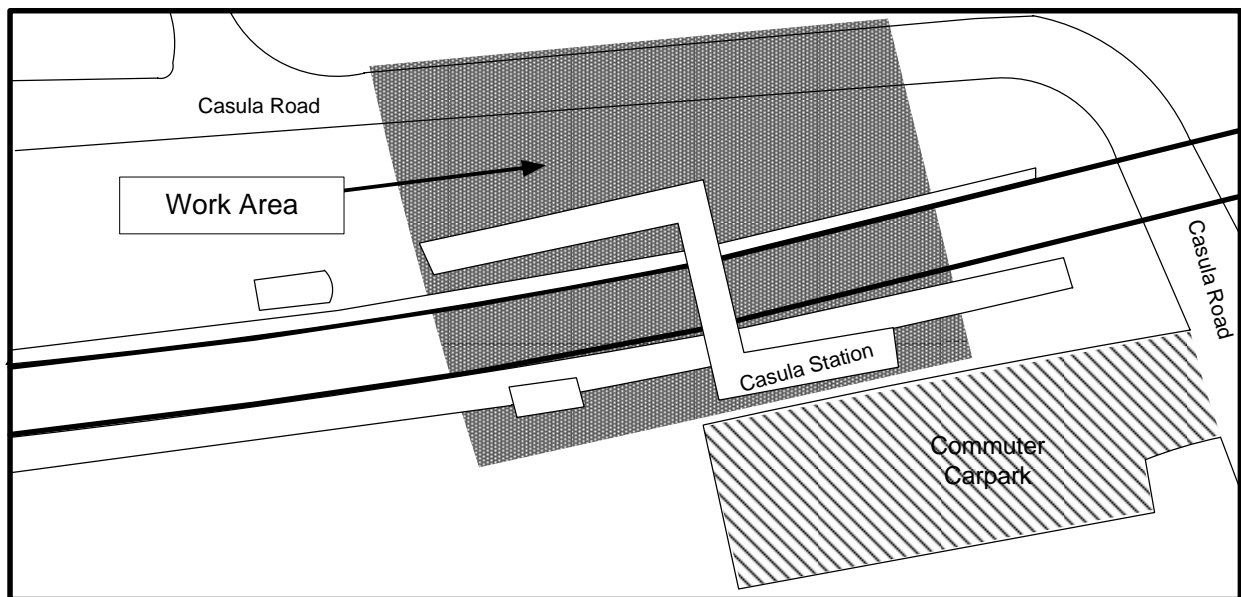

Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

Construction Work at Casula Station

Australian Rail Track Corporation (ARTC) will be undertaking construction work at Casula Station. This work must be undertaken outside of normal construction hours because there are safety risks involved with working in close proximity to the overhead wires and tracks.

Bridge works, installation of porches and light poles, and works to all lift shafts will take place on Saturday 10 December, from 7am to 6pm and on Sunday 11 December 2011, from 8am to 6pm. An approved contingency from 6pm to 10pm is in place for both days.

The equipment required on site will include a 100t crane, 20t franna, mobile scaffolding, elevated work platform, knuckle boom, concrete pump, generator, electrical drill, oxy set, delivery vehicles, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
