

## Southern Sydney Freight Line IMPORTANT COMMUNITY INFORMATION

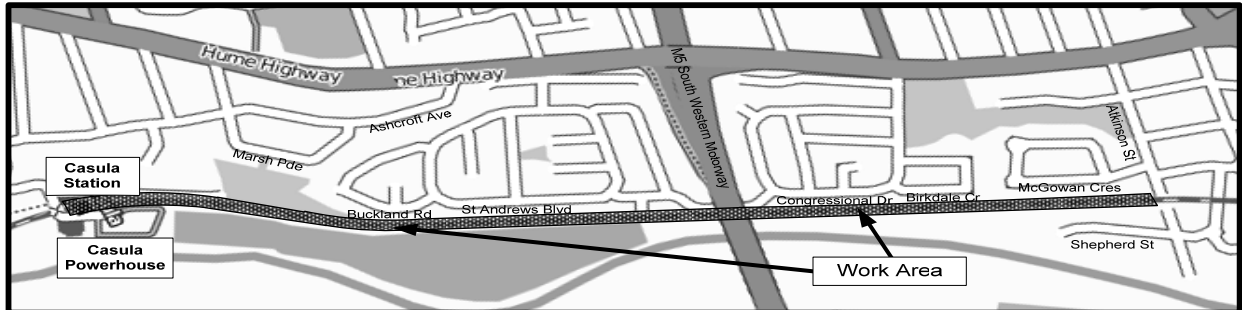

### Construction Works from Liverpool to Casula

Australian Rail Track Corporation (ARTC) will be undertaking construction work in your area. These works must be undertaken outside normal construction because there are safety risks involved with working in close proximity to the overhead wires and tracks. RailCorp has a track possession scheduled on 17 and 18 December 2011, which means passenger trains won't be running on this weekend to allow construction work on the train lines. The Southern Sydney Freight line will utilise this track possession to undertake work safely.

#### Shepherd Street, Liverpool to Casula Powerhouse

Casula Access Road works, including clearing, earthworks, bulk earth movement, construction of retaining walls (including piling), shotcreting and anchoring, culvert works, drainage works, maintenance of access ramps and cycleway works, as well as high voltage works, including installation and removal of power poles with associated aerial works, will be undertaken from 7am to 6pm Saturday and from 8am to 6pm Sunday on the weekends of 17-18 December 2011 and 7-8, 14-15, and 21-22 January 2012.

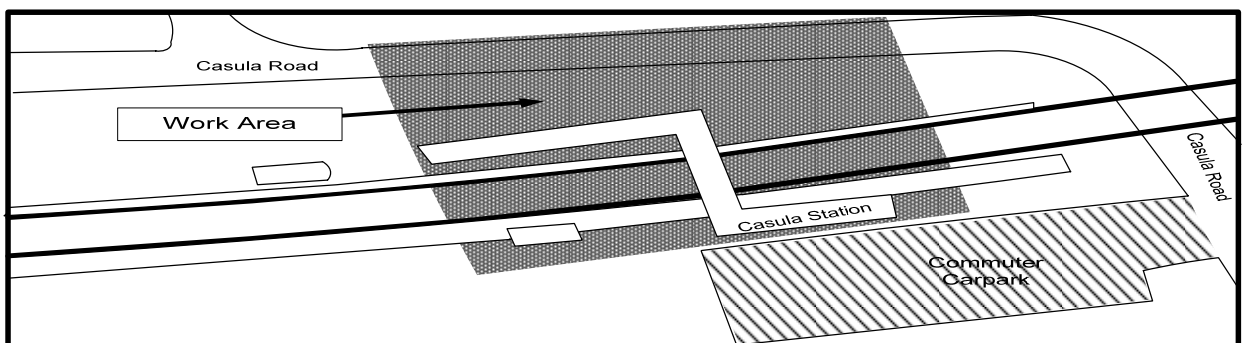

The equipment used will include pole trucks, elevated work platforms, excavators, compactors, rollers, bobcats, cranes, frannas, water cart, piling rig, trucks, dump trucks, concrete trucks, rollers, graders, boom pumps, anchoring rigs, generators, compressors, hydraulic hammers, and powered and non-powered hand tools.

#### Casula Station

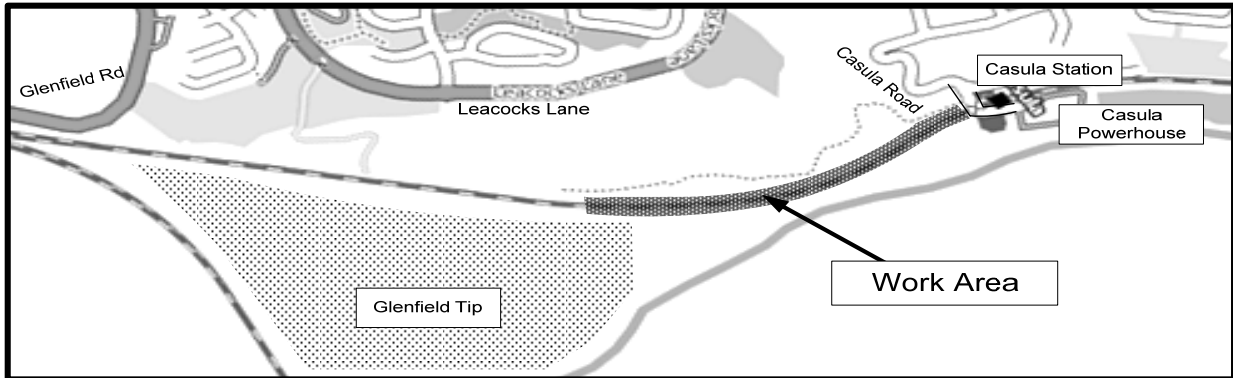

Station works, including bridge works, the extension of the deflection wall, works to lift shafts, platform works and a power upgrade, will take place from 7am to 6pm on Saturday 17 December and from 8am to 6pm on Sunday 18 December 2011. An approved contingency is in place from 6pm to 10pm on Saturday 17 and Sunday 18 December 2011.

The equipment used will include a 100t crane, 20t franna, mobile scaffolding, elevated work platform, knuckle boom, concrete pump, generator, high rail, piling rig, and powered and non-powered hand tools.

### **Casula Station to Glenfield Tip**

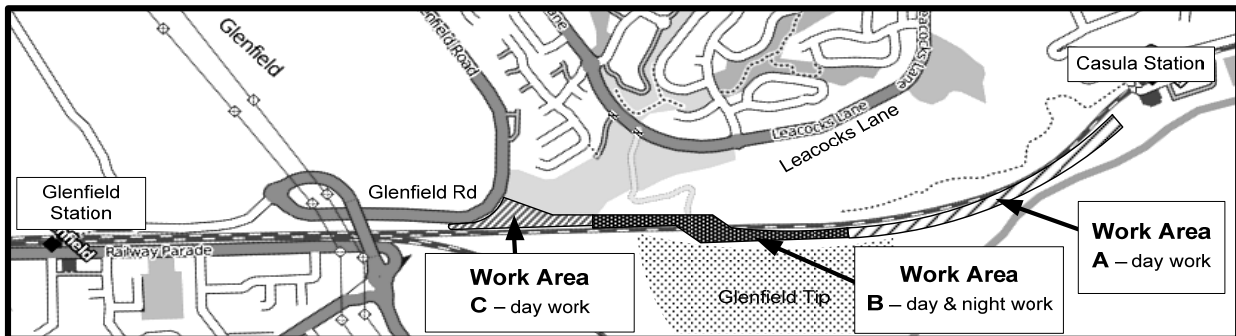

Removal of redundant power poles will be undertaken from 7am to 6pm on Saturday and from 8am to 6pm on Sunday on one weekend between Saturday 17 December 2011 and Sunday 22 January 2012. The equipment used will include a pole truck, two mobile cranes, an elevated work platform, and powered and non-powered hand tools.

### **Casula Station to Glenfield**

Piling, retaining wall construction, earthworks, drainage works, installation of temporary access roads and level crossing, potholing, installation of flyover hoarding panels and concrete blocks, as well as overhead wiring works will be undertaken from 6am Saturday 17 December to 6pm Sunday 18 December 2011 (an approved contingency is in place between 6pm and 10pm on the Sunday). Night time work will only be undertaken in Area B, as shown in the location map below.

The equipment used will include a 5t excavator, 8t tipper, two elevated work platforms, a pothole truck, piling rigs, excavators, truck & dogs, 100t crane, concrete trucks, concrete pumps, vibratory rollers, lighting towers, portable generators, and powered and non-powered hand tools.

We appreciate your patience while we build this important project for Sydney and NSW.
